

The City of Ceres is holding a Community Workshop to gather your input and to hear your concerns about walking or bicycling along **Central Avenue** (Whitmore to Hackett) and **Hackett Road** (Blaker to Central) (see area map).

Your participation and feedback are important to help the City prioritize needed improvements along these important corridors. Students, family members of students, and all residents are encouraged to attend the workshop.

The flyer features the City of Ceres logo at the top left, which includes the motto "TOGETHER WE ACHIEVE". The main title is "COMMUNITY WORKSHOP PEDESTRIAN SAFETY STREET IMPROVEMENTS". A central aerial map shows the project area highlighted in orange, covering Hackett Rd and Central Ave. Key locations marked on the map include Blaker-Kinser Jr High School, Kinser Rd, Blaker Rd, Service Rd, Don Pedro School, and Central Valley High School. A starburst graphic on the right says "WE NEED YOUR INPUT". On the left, text invites community input and provides the event details: Thursday, May 26, 4PM-6PM, at the PDR Room at Central Valley High School. Three icons on the right represent a pedestrian, a cyclist, and a skateboarder. A contact number is provided at the bottom.
